

Worshipping, Working & Growing Together

Sunday 15 March 2020

We have now received detailed instructions from both the Methodist Church and the Church of England in response to COVID-19.

At the time of writing:

- People attending Church services will be requested to wash their hands or use hand sanitiser (with minimum 60% alcohol) as they enter our building.
- We will be using the little cups for Communion and people will be invited to pick up, then replace their own cup.
- When we share the Peace, we will not be shaking hands
- We will not be serving refreshments after Sunday services.
- We are reviewing Café but have not yet made a decision.
- The Annual Congregational Meeting will be going ahead on Sunday 29 March after our 10.30 am service.

If any Church member feels that they are vulnerable at present, please do not feel that you have to attend Church. Our first responsibility is to be mindful of the wellbeing of all of our members and to ensure that folks are safe.

The situation is fast moving and constantly changing, so we may need to take different or additional actions in the days and weeks to come.

The Trustees have established a small committee to review matters on an ongoing basis and we will endeavour to update you regularly as events unfold. Please ensure that the office has the most up to date e-mail address for you in case we need to be in contact with urgent updates.
